

# TransFER Intermodal Continental

## TRANSFER Verona–Regensburg

With the TransFER Verona–Regensburg, we are expanding our network for continental goods flows and contributing to the modal shift to environmentally friendly rail along the Brenner axis with another connection.

The non-stop TransFER between Italy and Germany has the capacity to handle a transport volume of around 10,000, and from 2022 even 22,000 trucks per year, thus making a significant contribution to relieving transit congestion in Tyrol. With this reliable connection, we guarantee the efficient transport of containers, swap bodies and trailers between the terminal in Sommacampagna-Sona near Verona and the terminal in Regensburg operated by Bayernhafen.

### Your advantages

- Direct connection from Verona to Regensburg and v.v.
- 3 departures per week and direction
- Fixed timetable
- Attractive transit times
