

Paper

TODAY. TOMORROW. TOGETHER.

PAPER

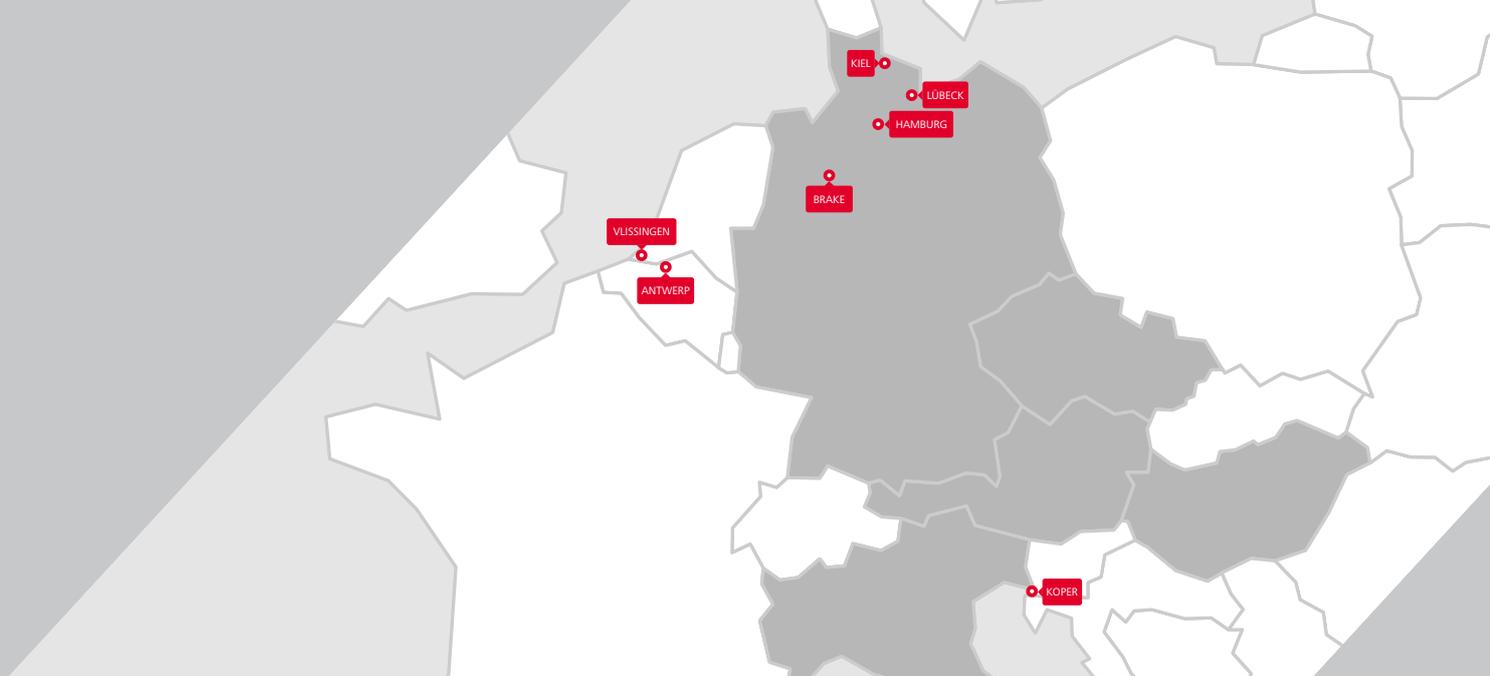

Paper is dynamic – just like logistics

Paper production processes are all about timing. We recognise these challenges and respond to your needs with safe and perfectly timed complete logistics solutions. We ensure the delivery of raw materials and the transport of the end products for you. We also take care of the reception of pulp at European ports and of the supply of wood, waste paper

and chemicals right through to delivery to the production site and the end customer. We are good at this because we've acquired extensive industry know-how over the years. You can rely on us for the entire handling, storage, first and last mile organisation, as well as for services such as shipment tracking and waybill preparation.

Your Cargo. Our Logistics Solutions.

- Interim storage options at our own logistics centres
- Dense connecting railway network with 30 sidings in Austria directly at the customer's premises
- Organisation of Europe-wide end-to-end deliveries
- High-quality wagon equipment

Equipment

Modern high-capacity wagons deliver the end product, paper, on time for further processing or distribution to retailers or end users.

- Modern high-capacity wagons
- MOBILER and ACTS for loose waste paper
