

Rail Cargo Group in **Turkey**

**WE
ARE
RAILCORE**

TODAY. TOMORROW. TOGETHER.

As an international forwarding company, we offer customised end-to-end logistics solutions for Turkey's emerging market economy.

Turkey is seen as the engine of many European markets and we are already on the direct railway route to Istanbul. With several trains per week, we play a major role as a European logistics player on the Turkish market. Domestic and international forwarding services for conventional and

combined rail transport, short sea shipping, international and domestic truck transport with standard trailers and container trailers are part of our key services. An all-round service package.

Your benefits

- We speak Turkish with you – and manage all communication with operators and partners.
- We take care of every aspect of your logistics needs – end-to-end from the first to the last mile.
- We facilitate transit transport between Europe and the CIS countries/Asia, acting as a reliable bridge for both import and export operations.
- Cost-effective and environmentally friendly alternatives to road freight as well as faster transport times compared to short-sea shipping.
- We have the right equipment for your transport, including quality-controlled train systems, high-capacity freight wagons, 45ft containers, and swap bodies.
- We are currently the only rail logistics provider authorised to carry your trailers through the Marmaray Tunnel under the Bosphorus, in addition to 45ft HC containers and swap bodies.
- When you book your Rolling Road (ROLA) trip from Wels to Maribor with us, we provide pre-booked spots that secure your place, even in the event of shortages.

Equipment

- Conventional freight wagons (wagonloads)
- 20ft, 30ft, 40ft, and 45ft containers
- 45ft curtain side containers
- 25ft and 45ft swap bodies
- Craneable trailer
- Non-craneable trailers (coming soon)
- MOBILER
