

TransFER Duisburg–Scandinavia

With the TransFER Duisburg–Scandinavia, we not only transport your wagonload traffic reliably and efficiently between Germany and Scandinavia, but also enable further connections across Europe. In addition, volumes from Austria can be integrated via our TransFER Salzburg–Duisburg–Wels, while cargo flows from Scandinavia can be distributed within Germany and onwards to France, Belgium and the Netherlands. Sustainable and safe delivery – from the first to the last mile.

Your Cargo. Our Logistics Solutions.

- **Regular connections:** Three weekly round trips ensuring stable and plannable cargo flows.
- **Planning reliability:** Fixed timetable for reliable and punctual transports.
- **Optimal Scandinavia connectivity:** Distribution from Malmö via the single wagon network as well as inbound flows to Malmö from across Scandinavia.
- **Industry-specific solutions:** Rail logistics solutions for all industrial goods as well as dangerous goods transports in accordance with RID.
- **Reliable end-to-end logistics:** Integrated transport solutions including first and last mile by truck.
- **Sustainable competitive advantage:** Ensuring a continuous and high-quality international production supply chain.
