

Quality policy and business principles of Rail Cargo Logistics GmbH

We are aware that we are judged by our conduct. We have set ourselves the ultimate goal to protect and maintain the good reputation that Rail Cargo Logistics. To this end we must always perform our business and activities sincerely and with integrity. The observance of all laws, values and standards is thereby matter of course.

We are aware of the importance of animal feed safety and feed safety and the obligation to fulfil the legal regulations and obligations.

We see a central value in respecting each individual. That is why, and this is our conviction, openness, building trust, team work in combination with professionalism, as well as pride in the own achievements are of crucial importance.

Since these are our business principles, these values describe the conduct that we expect from each and every employee. They should know, understand and act according to these principles. That is why a connecting framework, as well as formalised measures to introduce and implement these principles must be ensured.

It is essential that our conduct and actions are always inline with our values and principles.

Building trust with the customers, contractors, employees and the public is very important for the growth and success of Rail Cargo Logistics. We want to continuously work on earning and maintaining this trust. That is why we our actions follow these principles. The management states its responsibility that all employees understand the wording and meaning of these business principles, and also act and conduct themselves accordingly.
