

Integrated Management Policy of Rail Cargo Logistics - Hungaria Kft.

Rail Cargo Logistics - Hungaria Kft. is a member of the Rail Cargo Group, one of Europe's leading rail freight transport company groups. Our Company is committed to meeting the expectations of its interested parties in a safe, reliable, cost-effective and environmentally friendly manner, pursuing strategic partnerships.

In order to achieve our goals:

- Our Company operates in compliance with all relevant laws, regulations, standards, and other obligations.
- We maintain ongoing communication with our employees, customers, and all interested parties to ensure that they understand our Integrated Management Policy, objectives, and programs.
- We continuously improve our processes while regularly assessing and managing risks and opportunities.
- Our Company is run by committed managers and employees who possess the necessary skills and education to interpret and implement corporate processes in a consistent manner. We also provide them with appropriate training on a regular basis to ensure that they perform their activities to a high professional standard.
- We create working conditions that enable compliance with occupational safety and health requirements, eliminate potential hazards, reduce risks, and support the continuous improvement of our system.
- When selecting our suppliers, we place particular emphasis on quality, safety, and environmental protection, and we continuously monitor and evaluate their performance.
- We monitor the environmental impact of our activities. In line with the interests of society, we strive to reduce this impact, prevent environmental pollution, and achieve our specific environmental goals.
- By operating our food and feed safety management system and continuously developing our food safety culture, we ensure the safety of the food and feed we forward and store, while eliminating or minimizing food and feed safety hazards.

Our Company maintains, operates, and continuously develops an Integrated Management System that meets the requirements of ISO 9001:2015, ISO 45001:2018, ISO 14001:2015, ISO 22000:2018, and GMP+ FC2020 standards.

Budapest, April 25. 2025
