

# MULTIMODAL LOGISTICS

## North-South traffic DE-AT-IT

We create efficient connections between important economic regions in Germany, Austria, Italy and Slovenia with our multimodal end-to-end logistics solutions. We are also helping to shift traffic to the environmentally friendly railways along the Brenner axis and to relieve transit in Tyrol. We transport containers, swap bodies, and craneable trailers all over Europe – reliably and efficiently.

### YOUR BENEFITS AT A GLANCE

- Plannable door-to-door service for you and your cargo
- Reliable departures – several times a week with recorded timetables
- Assured capacity and universal equipment (swap bodies with side loading and unloading capability, containers, bulk, trailers, etc.)
- Non-stop connections with attractive transit times connecting Europe's most important industrial centres with end-to-end solutions including first and last mile – with transshipment options available on request
- Connection to our comprehensive European network (TransNET)

### YOU CAN EXPECT US TO ...

- ... be able to transport anything you carry by truck by rail with our 45ft swap bodies and 45ft HCPW containers without losing any cargo space.
- ... handle the provision of empty containers as well as collection and delivery by truck to your end customers.
- ... provide you with a cost advantage thanks to our competitive door-to-door prices for long distances.
- ... ensure that you or your customers have a continuous factory supply thanks to our secured train departures.
- ... make a significant contribution to protecting our environment and reducing CO<sub>2</sub> emissions with this sustainable transport solution.
- ... make it possible for you to go with us over land all the way to Asia and back, enjoying lower transport costs than air freight and faster transport times than sea freight.
