chain planning
with end-to-end
deliveries and
disposition from
a single source

Safe, reliable,
punctual and in
maximum quality

Regular
connections
to CIS

Daily departures
to Záhony

Route plan

Final destination Záhony

An aerial photograph showing a train crossing a bridge over a deep, forested valley. The bridge consists of a stone viaduct on the left and a modern steel arch bridge on the right. The train is moving from left to right. The surrounding landscape is densely forested with green and yellow trees, and a river is visible in the background.

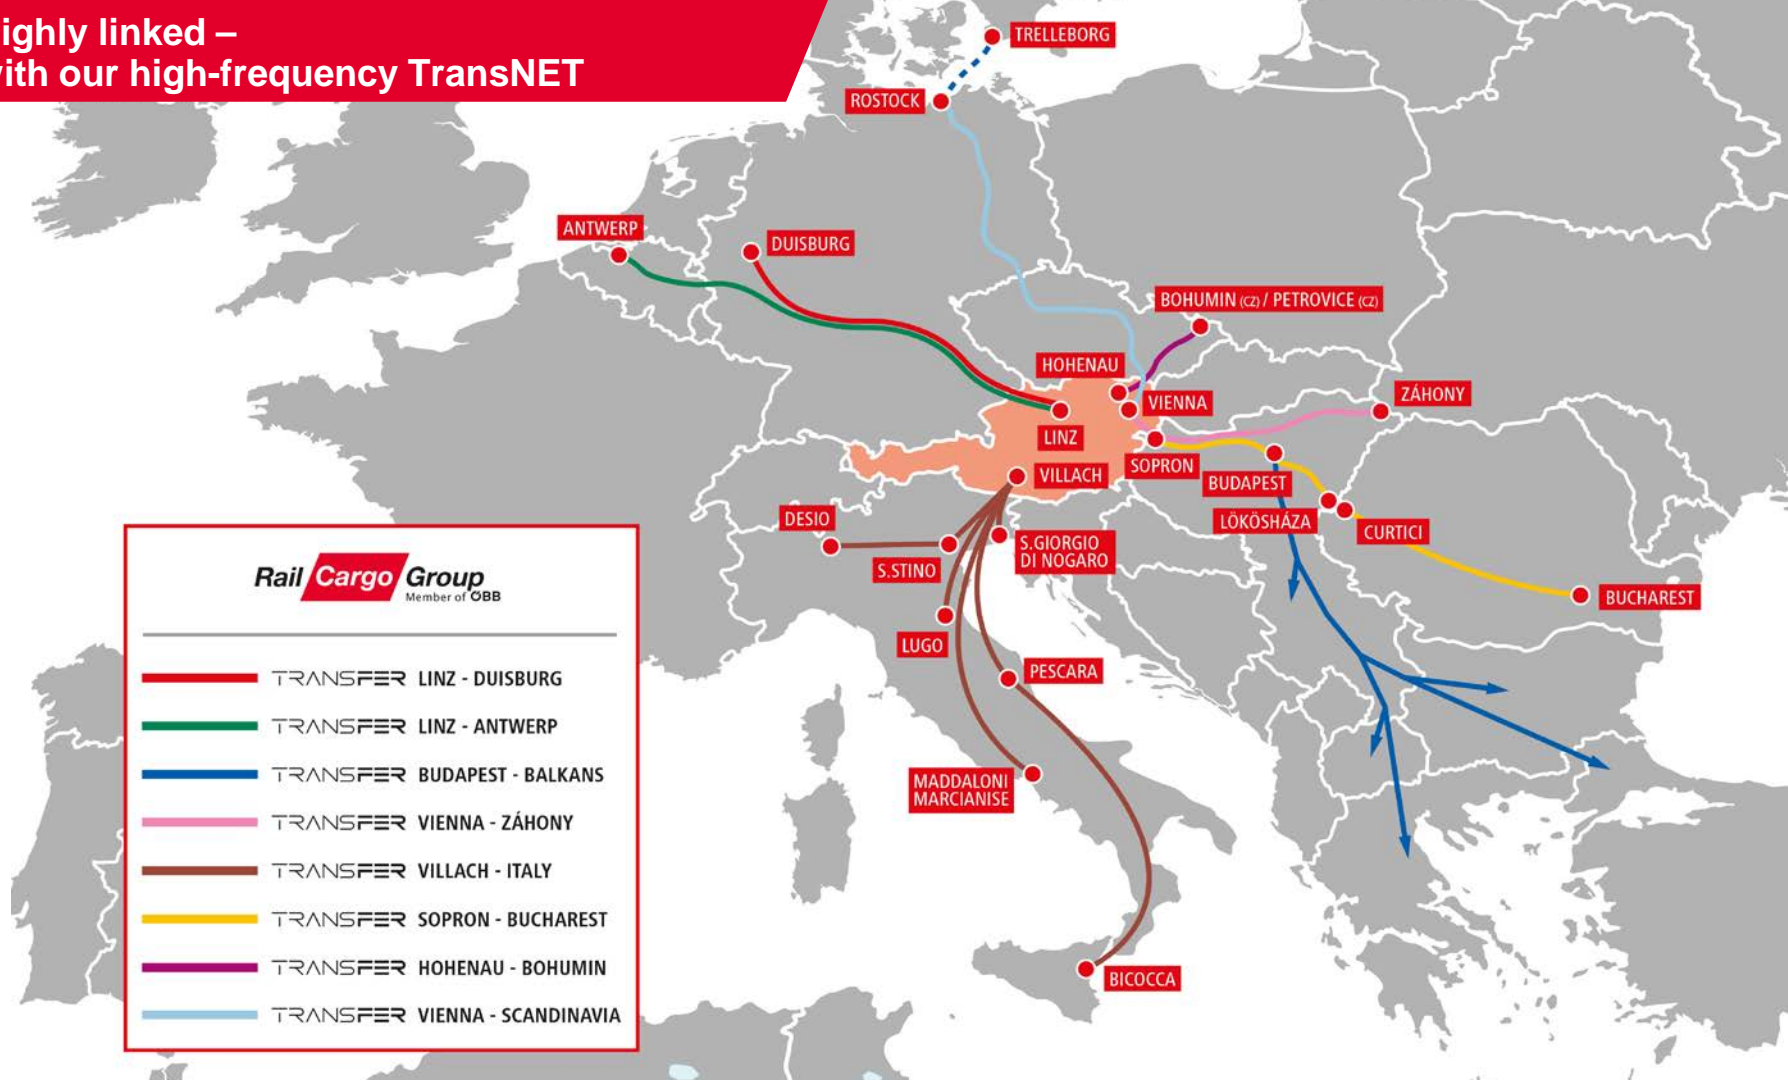

A **bridge between normal and broad gauge** – our train system from Vienna via Budapest–Ferencváros to CIS border Záhony

- **5 departures** / week
- **Transit time** TransFER Vienna–Záhony: 4 days

- TransFER connection with capacities for **conventional wagonload** traffic
- Industry-specific rail logistics solutions for **all industrial goods** and **hazardous goods (RID)** shipments
- Daily **transport information** on shipment status

Highly linked – with our high-frequency TransNET

We take care of every detail

- Organisation of pre- and post-carriage
- Transshipment facilities & warehouse logistics
- Always ready in an emergency
- Damaged wagon management
- Emergency management

Nothing is impossible

A photograph of a construction site. In the foreground, a worker in a bright orange high-visibility jacket and white hard hat is seen from behind, looking towards three other workers. The other workers are wearing yellow high-visibility suits and white hard hats. They appear to be in conversation. In the background, there is a large red concrete mixer truck with the 'LOCEY' logo on its side. The ground is dirt and gravel, and there are various pieces of construction equipment and structures in the distance.

In the beginning was an idea. And then came the individual logistics solution – according to your specific logistics requirements and needs.

Contact us, we will make you a tailor-made offer at competitive prices.

We are here for you
