Steel & Energy

TODAY. TOMORROW. TOGETHER.

STEEL & ENERGY

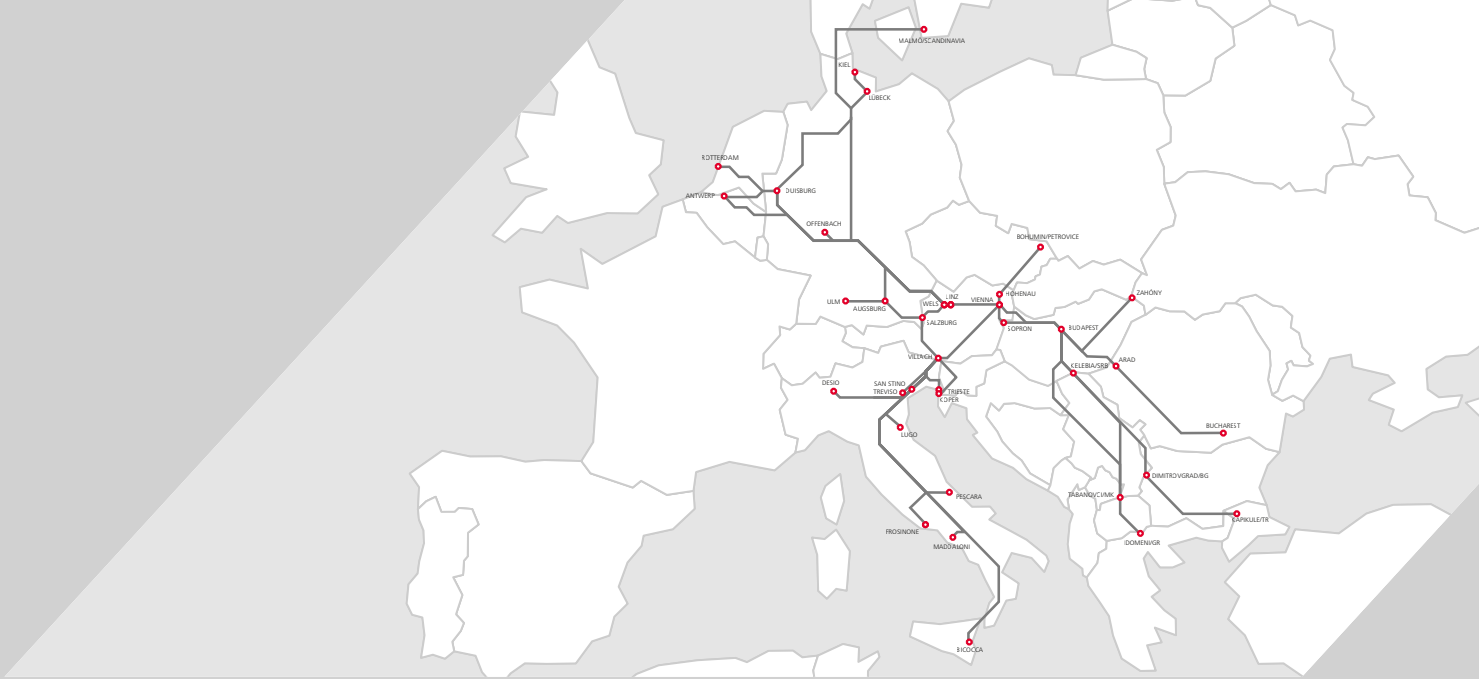

As strong as steel – just like your logistics solution

5.9 million tonnes of steel and 13.2 million tonnes of raw materials per year – if you need a reliable logistics partner with high transport capacities, you can rely on us. We transport your products efficiently from A to B and improve your **carbon footprint** at the same time. We organise **end-to-end logistics solutions**, including handling and first and last mile, with calculable, regular transport times, thus ensuring the supply of goods to the production and processing industries. Your coal and steel industry business benefits from our modern, industry-specific equipment – optimised for the transport of **scrap, coal, iron ore, pipes, blooms, steel coils, tracks** and more. We also professionally handle your transport solutions in the metal recycling cycle.

Your Cargo. Our Logistics Solutions.

- Development of innovative and sustainable logistics and transport solutions for the international metals industry
- Complete logistics from a single source – for block trains, single wagonloads and wagon groups
  - 1PL: Traction (own traction in 14 countries)
  - 2PL: Traction and handling including first and last mile
  - 3PL: Traction with end-to-end logistics solutions and additional services (e.g. customs clearance, handling and final distribution)

Typical Wagon Types for Steel and Raw Materials Logistics

Type	Cargo
Ea	Semi-finished steel products, pipes, slabs, scrap, ores, coal, HBI, DRI, wire coils etc.
Fa	Ores, cokes, coals
Ha	Sensitive metal goods, metal goods on pallets
K, R	Heavy long products made from steel, such as pipes, profiles, beams, rails, slabs, reinforcing steel
Shi	Sheet metal rolls (coils)
Ta	Ores and ore pellets
