

TRANSFER

Hohenau–Bohumín/Petrovice

To/From the Czech Republic or Poland with connections to the broad gauge network and the CIS countries

Our non-stop Transfer Hohenau–Bohumín/Petrovice offers the safe, reliable and eco-friendly transport between Austria, the Czech Republic and Poland. What's more, we provide first and last mile own traction services carried out by RCG staff at Bohumín-Vrbice to and from key destinations in the Czech Republic. And we connect Central, Southern and Southeastern Europe with Northeastern Europe and the CIS countries as part of our TransNET.

YOUR BENEFITS AT A GLANCE

- High frequency with five to seven daily round trips
- Ideal connection to the broad gauge network – and thus to the economic area of the CIS member states
- First and last mile in RCG own traction from Bohumín-Vrbice
- End-to-end logistics solutions from a single source

HERE IS WHAT YOU CAN COUNT ON ...

- ... a **comprehensive** offer of additional services such as transshipment, warehouse logistics, customs clearance and final distribution.
- ... with five to seven round trips a day, we guarantee **high-frequency** transport services between Austria, the Czech Republic and Poland.
- ... we facilitate the shift from normal to broad gauge, which provides the **ideal** connection to the CIS countries' economic area.
- ... we **seamlessly** connect the north-western and south-eastern European region with satellite connections in all directions from Hohenau.
- ... we ensure the **efficient** distribution of your goods in our extensive TransNET in combination with other Transfer connections e.g. via Sopron to Romania or via Hegyeshalom and Sopron to the Balkans.
- ... a **sustainable** transport solution that significantly contributes to protecting our environment and saving CO₂.
