Waste on rails – with us, your waste disposal becomes sustainable

As a waste disposal company, you need reliable end-to-end logistics solutions that don't come to a halt at the railway station. Our container and wagon systems combine the advantages of rail and road and make both solutions available to you: whether excavated material, cullet, construction and demolition waste, household waste or ash and slag – we have the right railway logistics solution for your disposal

requirements. In intensive dialogue with the industry, we have developed customised transport concepts that we handle with partners in the international single wagonload network and a nationwide infrastructure in Austria. Thanks to our many years of expertise, we are your competent partner for waste transport on sustainable railways.

Your Cargo. Our Logistics Solutions.

- Innovative end-to-end logistics solutions for your needs
- Comprehensive infrastructure in Austria
- International single wagonload network with partners for flexible transport options
- Customised equipment solutions such as MOBILER, ACTS and more
