

Multimodal Logistics East-North traffic

Our multimodal door-to-door logistics solutions make the transportation of your goods as straightforward and efficient as possible. We connect major economic regions in the Czech Republic, Hungary, Germany and Austria – and give you access to the Baltic Sea ports for direct ship connections. We transport your goods reliably and punctually across Europe – in our own containers and swap bodies.

Your benefits at a glance

- Non-stop connections with attractive transit times between Europe's main industrial centres including first and last mile – transshipment options on request.
- Plannable door-to-door services for a reliable delivery of your freight – even over long distances.
- Assured capacity and universal equipment such as swap bodies with loading and unloading from the sides and top, containers, bulk, trailers, etc.
- Reliable and plannable departures ensure a continuous factory supply – several times a week at defined timetables.
- Sustainable transport solution with our 45ft HCPW containers by rail – with no loss of loading space.
- Handling of empty container supply as well as collection and delivery by truck to your end customer – all from a single source.
