# End-to-end logistics solutions

to and from the Port of Koper

TODAY. TOMORROW. TOGETHER.

**WE  
ARE  
RAILCORE**

# Overview

- Comprehensive end-to-end logistics solutions to and from the Port of Koper
- Full service package across the entire logistics chain
- Safe, reliable, punctual and maximum quality
- Connections to TransNET across Europe all the way to Asia
- 24 hours a day, seven days a week, all year round

## Basic information

### Location

- RCG office in the Port of Koper since 2009

### Services

- Port logistics
- Freight forwarding activities
- Control of cargo moves, operations and status
- Warehousing
- Customs clearance
- Organisation of first and last mile

- Our own **direct freight forwarding contract with the port** allows us to ensure the logistics of the port terminal before the start or end of the rail transport.
- Our offer in the port includes inspections, weighing, loading coordination, physical presence and assistance for customer cargo, organisation of backloads of empty wagons as well as organisation of first and last mile.

*Realised example: port reloading coordination, rail transport organisation with back loaded wagons in return, weighing*

## Freight forwarding services

- We have the **know-how** to offer comprehensive **end-to-end logistics solutions** with all supporting services.
- We take care of port logistics for **containers, bulk cargo, general cargo, liquid cargo** and **automotive logistics**.

*Realised example: port forwarding of salt*

- Warehousing of **different types of goods** (bulk, dry, palletised, liquid, ...) within and outside the port with various status: domestic, customs and excise
- Organisation of cargo reloading, stripping and stuffing
- Handling out-of-gauge shipments

*Realised example: out-of-gauge cargo*

## Customs services

We perform following customs procedures with our trusted partners

- Import & Export procedure
- Customs Procedure 42
- Transit docs  
(high level bank guarantee available)

# Nothing is impossible – We are here for you

In the beginning was an idea. And then came the individual logistics solution – according to your specific logistics requirements and needs.

Contact us, we will make you a tailor-made offer at competitive conditions.
