Logistical expertise that carries our name

- Sustainable conventional **wagonload transport**
- Industry-specific rail logistics solutions for **all industrial goods** and **dangerous goods (RID)** shipments
- Regular and reliable transport connection

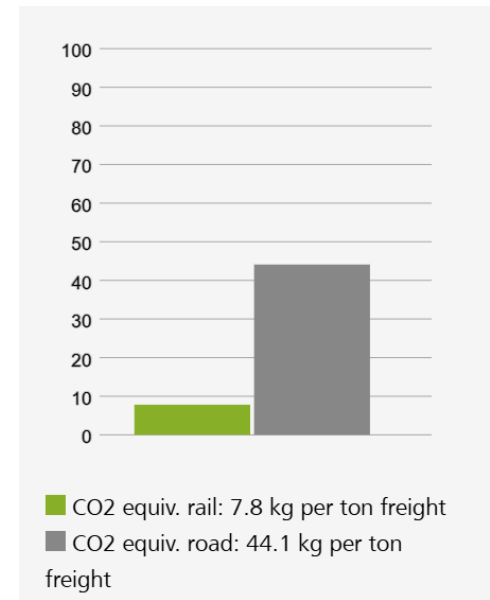

High-frequently linked

The non-stop connection as interface of European economic centers

- **Arrival & distribution** via efficient single wagon system with a strong operating grid in the area
- Train formation points Salzburg and Augsburg: Composition of **single wagon** consignments and **groups of wagons**
- **Direct delivery via Ulm** for customers with their own sidings; **distribution via the Ummendorf hub** for companies without direct rail access.

Comparison rail / road emissions

Calculated with EcoTransIT-World assuming an average load and the respective country energy mix..

Your benefits

- Sustainable conventional wagonload transport – also suitable for transporting dangerous goods (RID)
- Comprehensive end-to-end logistics solutions, including organisation of first and last mile
- Extensive additional forwarding services
- Connections to and from Austria, Germany, Benelux, Switzerland, France, Italy and South-Eastern Europe
- Two round trips per week for reliability and predictability
- Main leg in RCG own traction

What matters

We take care of every detail
