

TransFER Intermodal Eurasia

TRANSFER Xian–Vienna–Milan

We have been focusing on the direct rail connection between China and Austria (and on to Italy) for some years now. The province of Shaanxi is located in the middle of the People's Republic of China and is considered one of the birthplaces of Chinese industry.

This connection, which begins in Xi'an, the capital of the Shaanxi region, runs on the Northern Silk Road and crosses the Chinese-Kazakh border at Dostyk before passing through Kazakhstan, Russia, Belarus, Poland and the Czech Republic on its way to Austria. After a short stop at Terminal Vienna South (Wien Süd), the train is then dispatched on to Milan. This journey of approximately 10,000 train kilometres is covered in a total of 16 to 18 days. Stopping at Terminal Vienna South (Wien Süd) allows for goods to be distributed further via our dense and efficient network of TransFER connections to Germany, Hungary, Slovenia, Romania, Turkey and also within Austria.

Your advantages

- Direct connection between Xian, Terminal Vienna South (Wien Süd) and Terminal Melzo (Milan)
- Fixed timetable
- Attractive transit times of approx. 16 to 18 days
- Connection to our unparalleled European network
- Storage facilities in our logistics centres across Europe
- Management and handling of first mile and last mile services by truck
- Additional forwarding services such as organizing distribution, loading/unloading/transloading, load restraint, weighing, transshipment facilities and warehouse logistics, preparing consignment notes, transshipment, customs services, wagon cleaning
- Daily update on transport status
