# MOBILER

LINKING RAIL & ROAD

# Presentation MOBILER

A hydraulic lifting device on the MOBILER vehicle enables rapid and uncomplicated handling of containers and swap bodies

- between HGV and train wagons without a crane
- or own connecting railway

# MOBILER – Your advantages

- Combination of rail and road freight transport
- Individual and innovative equipment solution
- Coverage of the complete supply chain
- Customised to your needs
- Storage in MOBILER containers expands your storage capacity
- Just-in-time – Direct production into the containers reduces expensive truck downtimes

# MOBILER – Vielfältige Einsatzmöglichkeiten

For customers without  
connecting railway

First and last mile  
on the factory  
premises using a  
MOBILER vehicle

For the development  
of industrial centres  
without railway siding

Safe and fast  
transshipment  
of all goods and  
containers

Decentralised  
supplement to  
combined transport  
terminals

## MOBILER-System

Installation on a wide variety of carrier vehicles – 3-axle semi-trailer with tilt function

# Our selection of MOBILER containers for your transport

30 ft Halftainer

30 ft bulk materials container

Multitainer 36 – H

30 ft Multitainer with bulk materials

Multitainer 36 – K

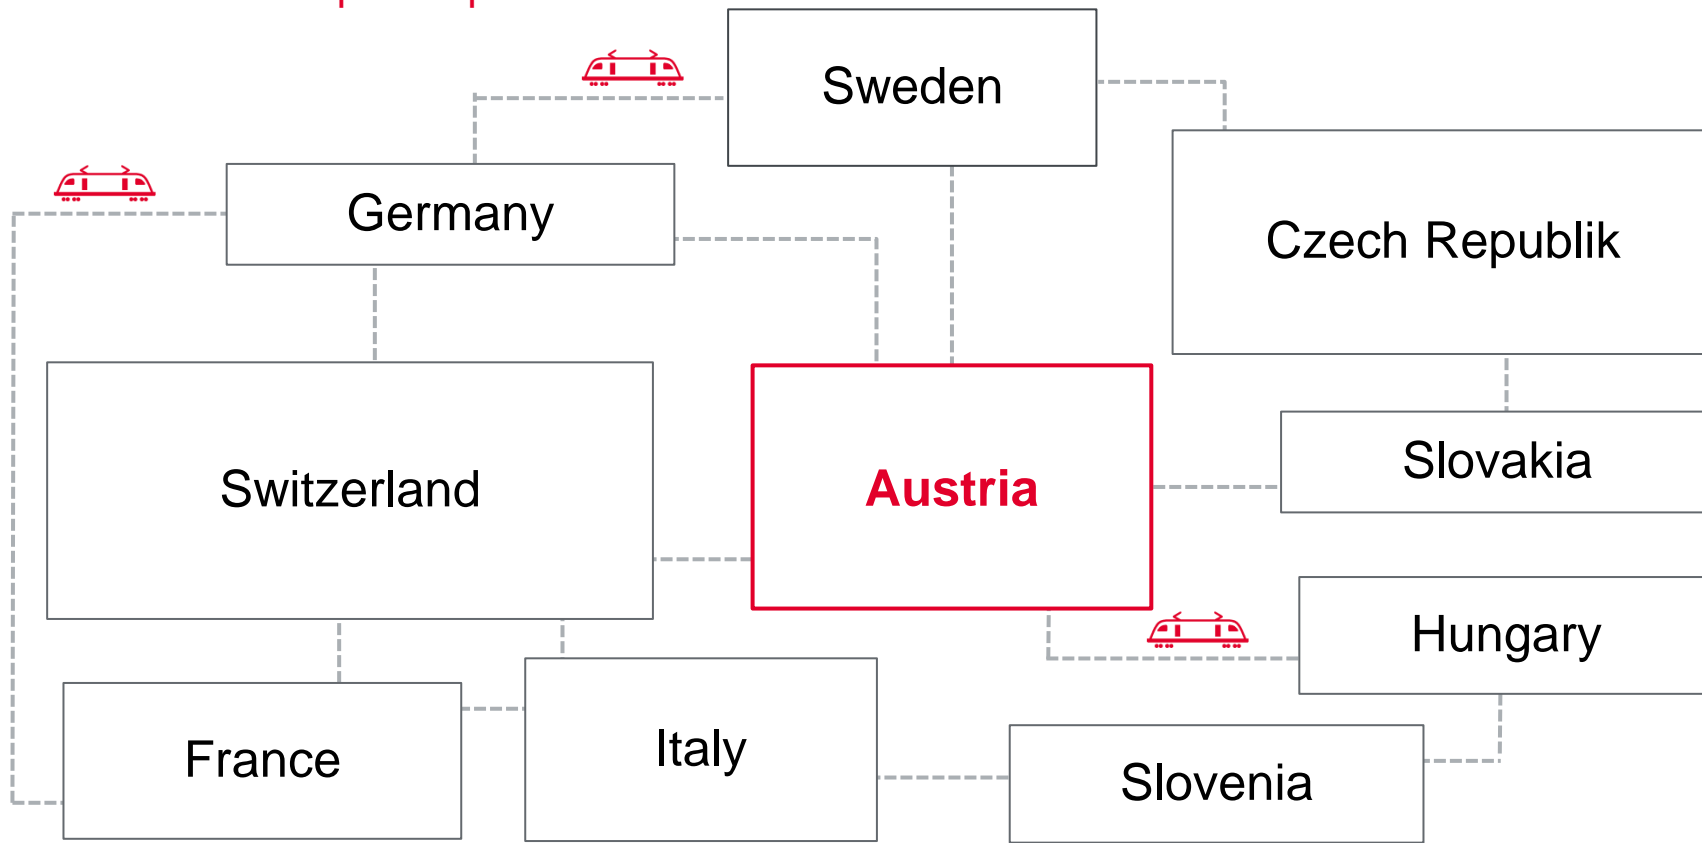

BIO grain container

## MOBILER MULTITAINER

The container innovation for **heavy bulk goods** and **palletised goods** enables round trips with a wide range of goods, including e.g. garbage, granulated slag, cinder, clinker, waste glass and all palletised goods.

# MOBILER transshipment points

## Our reference customers

Building materials, industries, disposal, organic feed, ...

Customers from a wide variety of industries show that innovative logistics can be both ecological and economical.

# Team Environmental Solutions & MOBILER – We are here for you
