

# TransFER Villach–Italy

With our high-frequency TransFER connections, we offer you the full range of safe, reliable and environmentally friendly transport services for rail transport between Villach and several destinations throughout Italy. Together with our on-site logistics centres, we offer end-to-end logistics solutions with organisation of first and last mile, conventional wagonload but also container transport as well as additional forwarding services – all from a single source.

## Your benefits at a glance

- Multiple round trips a week
- RCG own traction on almost all TransFER connections or partnership with established RU on site
- End-to-end logistics solutions from a single source
- Sustainable conventional freight transport
- A reliable end-to-end logistics solution – including first and last mile
- Additional forwarding services such as handling facilities, warehouse logistics, customs services and final distribution
