

Chemicals

TODAY. TOMORROW. TOGETHER.

CHEMICALS

Play it safe – reliable transport solutions for your dangerous goods

Whether sensitive, toxic or explosive: chemical products are among the most challenging goods to transport. We are fully aware of this and are happy to take on the challenge. Whether full train loads by block train or single wagon transport, containers or flexi-tanks, we pack your goods in the right equipment and ensure complete documentation of the transport. Do you need a warehouse that is fully customised

for dangerous goods? No problem at all! At our Krems site in Austria we offer storage facilities for various classes of dangerous goods – including services such as repackaging, labelling and customs and waste management. Every year, we transport around four million tonnes of dangerous goods safely to their destination. So you can breathe a sigh of relief: your chemical goods are in safe hands with us.

Your Cargo. Our Logistics Solutions.

- Freight management for rail, sea transport and trucks
- Specialised site logistics, freight management and dangerous goods logistics by rail
- Dangerous goods warehouses for various classes of dangerous goods
- Planning and provision of equipment and deployment scheduling of rolling stock
- Wagon scheduling, flow monitoring and incident reporting management
