

TransFER Belgrade–Rijeka

A direct connection between Serbia and Croatia, linking two important rail freight hubs and strengthening logistics in the Western Balkans. With the TransFER Belgrade-Rijeka, we connect the Nelt container terminal near Belgrade with the Adriatic Gate Container Terminal (AGCT) in Rijeka, Croatia's largest port. Thanks to the direct connection to the Serbian rail network, we can make your rail freight transport more efficient and shorten transport times. This allows you to optimise your logistics processes and take advantage of new opportunities in the region.

Your Benefits at a Glance

- Fixed timetable for predictable and punctual transport
- Two to three round trips per week with an attractive transit time of up to 24 hours per direction
- Suitable for 20ft, 40ft and 45ft containers with a capacity of 76 TEU
- First and last mile organisation as well as regular status updates by e-mail
- Attractive connections from Serbia and Croatia to Hungary, Germany, Benelux and Southeastern Europe
